NEWS & UPDATE

Under Muskan Association for Parents and Professional (MAPP), we conducted rangoli making competition on 6th November 2020. Our parents showcased their creativity and talent by actively participating and creating such beautiful rangoli designs. We are aware that our parents at times may feel low and thus we conduct recreational activities in order to lift up their spirits. One of our parents gave this feedback that by participating in such fun filled activities, it makes them feel like a child and forget their tension.

On 7th November 2020, our Special Educators completed training of Parents of the CST programme through the course of nine group sessions. The training was focused on the caregiver, on how to use everyday play and home activities and routines as opportunities for learning and development. Muskan is very proud of our Special Educators Sonam Ganjale-Jadhav and Saraswati Khairmode-Banerjee for successfully completing the training of Parents of the WHO CST programme.

We conducted Open day for our first semester examination on 7th November. Most of our parents were already well versed with the progress of their child. Usually parents would receive the results after examination however with the online education classes parents are greatly involved in the progress and development of the child. They are now able to understand the child's need and assess the progress themselves. We are grateful for our parents who are always proactively working with Muskan.

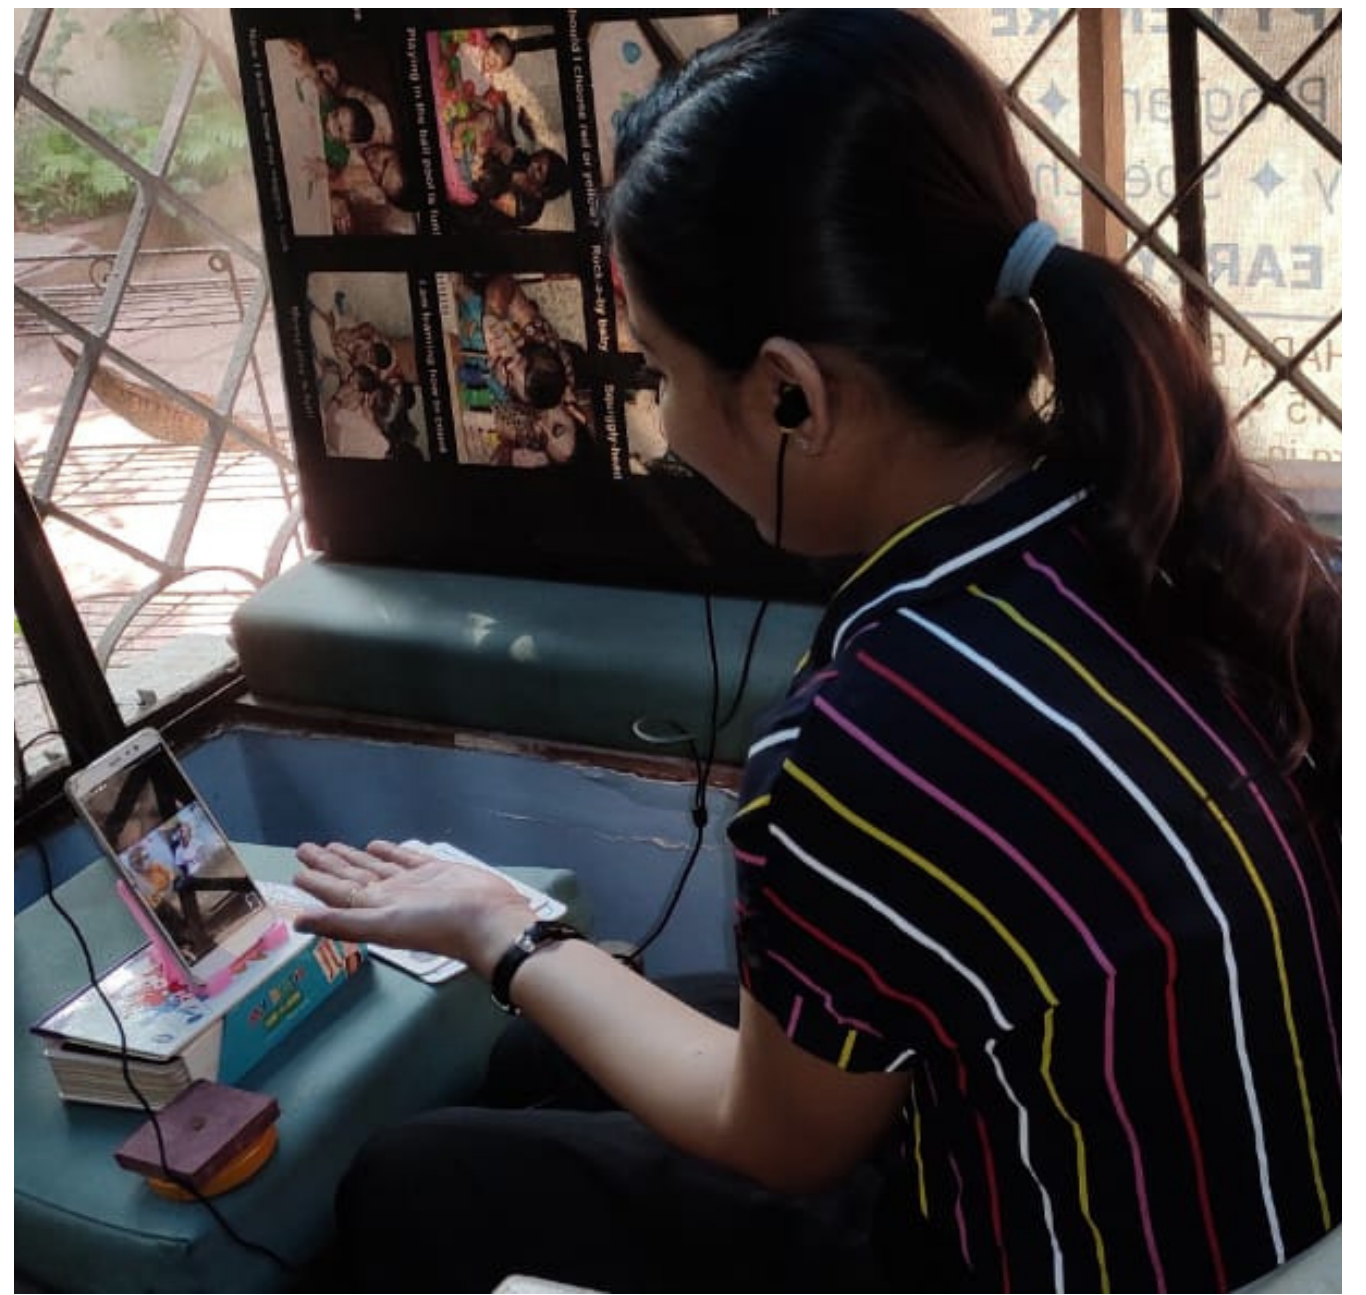

The festival of light signifies the victory of good over evil, knowledge over ignorance, light over darkness. Our Special Educators explained the concept of Diwali to our children by showing them video's and undertaking various activities so that they can practically understand why we celebrate Diwali. We introduced various sweets like ladoos, karanjis, shankar pali, chakali which are usually enjoyed during diwali. In this way, our Special Educators ensured that our children get to experience and celebrate Diwali!!
